APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the permit is issued subject to the provision that the use will be non-consumptive and that there will be no diversion of water that in any way depletes waters of the source. This approval does not preclude fluctuations of water levels when necessary to satisfy prior rights. It is also subject to the provision that there will be no adverse effect on water quality by the non-consumptive use granted in this permit. The State retains the right to regulate the use of the water herein granted at any and all times.

The 18.5 c.f.s. granted is only a temporary allowance and the final water right under this permit will be dependent upon the amount of water actually placed to beneficial use for non-consumptive purposes.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 18.5 cubic feet per second.

Actual construction work shall begin on or before April 21, 1975

Proof of commencement of work shall be filed before May 21, 1975

Work must be prosecuted with reasonable diligence and be completed on or before April 21, 1976

Proof of completion of work shall be filed before May 21, 1976

Application of water to beneficial use shall be made on or before April 21, 1978
